PRIMARY EXPERTISE

- ◆ Unity & C#
- ◆ VR & AR Development
- ◆ Gameplay & AI Systems
- ◆ Technical Direction

OTHER EXPERIENCE

- ◆ iOS & Android
- ◆ VR Performance
- ◆ AWS / Firebase
- ◆ Editor Tools
- ◆ Unity VFX
- ◆ UI/UX Design
- ◆ Blender

KEY SKILLS

Generalist: As a frequent solo developer I work across code, design, 3D, audio, animation, VFX and UI, which lets me talk to every part of a team.

Fast learner: I adapt quickly to new workflows, engines and platforms, and I enjoy building new skills.

Problem-solver: I am an open-minded lateral thinker who finds creative, effective ways to reach the outcome.

LANGUAGES

- ◆ English (native)
- ◆ Swedish (learning)

PERSONAL PROFILE

Lead Developer on MEMOREUM, a full-length VR action game on Meta Quest, and CTO of ElfMoNN, an AR storytelling app for families. Through my studio, Brian Duffy Games, I make games, apps and tools for clients and for myself.

WORK EXPERIENCE

CTO - **ElfMoNN Ltd** (2024 - present; contractor from 2023)

Sole developer: storytelling engine, in-room AR, video calls, native audio.

Lead Developer - **Patient 8 Games** (2022 - 2025)

MEMOREUM for Meta Quest. Also credited: gameplay, AI, VFX and UI design.

Owner & Developer - **Brian Duffy Games** (2022 - present)

44 freelance projects for 9 clients: VR, AR, mobile, desktop. 5.0 rating.

Earlier - founder of **DeadBeat Promotions** (live music events); retail and sales roles.

SELECTED WORK

MEMOREUM - sci-fi action horror, Meta Quest (2025)

ElfMoNN - AR storytelling for families, iOS and Android

Screen Nook - lit 3D miniature worlds for your desktop, Steam (coming soon)

A.B.E. - mech arena fighter prototype (client, in development)

Guardian Gate and **Vitals Display** - Unity Asset Store tools (2026)
